

BROWN COUNTY YMCA SOLAR ENERGY PROJECT

Patrons and friends of the Brown County Y are invited to participate in the Solarizing of the YMCA. There are three primary reasons to invest in this project>

- Reduce electric bills so the pool and aged HVAC systems can be repaired or replaced
- Replace electricity from burning coal and natural gas with renewable energy
- Make the YMCA more independent as a disaster relief site

Project Goal

\$220,000 for installing 290 grid tied solar panels on the roof of the gymnasium.

How You can Help

1. Donate to the Solarize Brown County Fund at the Brown County Community Foundation. The cost of each solar panel is about \$700 or 3 panels for \$2,000.
2. Become a member of the Brown County YMCA Solar Project LLC with a minimum investment of \$5,000. The LLC will be managing the project. LLC members may share revenues that are generated through an agreement with the YMCA.

You can select one or both of these options.

I would like to contribute to the Foundation fund with a donation of

_____ number of solar panels, totaling \$ _____

I would like to be a member of the LLC. My commitment is \$ _____
